

The cover artwork of Elixir's 'The Son of Odin' album is featured in a new book by Martin Popoff and Malcolm Dome entitled 'The Art of Metal'.

The hardback book has 224 thick, 80 lb. gloss, full colour, richly printed pages at a large page size of 10" x 11," with lots of tiny print – every pages is bursting with pictures and writing.

It really is a beautiful book, and a piece of art in itself! If you are interested in grabbing yourself a copy, click on the image above to go to Amazon's seller page.
